Align Your Brand with CAPMA

As the industry's voice at the State Capitol, we represent owners, operators, and pest control industry professionals in California.

Who We Are

The California Pest Management Association strives to be the premier state trade organization, offering top-tier services and support to its members through leadership, training, education, legislative involvement, and industry awareness. As a non-profit trade association serving pest control operators for over 80 years, CAPMA ensures members stay informed about new materials, procedures, laws, and precautions. We collaborate closely with the state's Structural Pest Control Board and Department of Pesticide Regulation to shape regulations that protect both the credibility of our industry and the safety of our customers.

Reader Testimonials

"Since participating in [CAPMA media] I know my ad consistently ends up in the right hands. Advertising with CAPMA has been one of the most effective decisions Mega Fume has made to date!"

Dave Wadleigh
Mega Fume, Inc.

"There is no greater asset to a company than timely and relevant information about our industry and the people who are in it. There is no greater source for this information than CAPMA and the great publications that they produce."

Jim Steed
Neighborly Pest Management, Inc.
